Cat. No. T-4868

Rabbit anti-Mambalgin-1

GENERAL SPECIFICATIONS

STORAGE:

This polyclonal antibody is supplied as a lyophilized powder, suitable for use in EIA/ELISA. For long-term storage, store at -20°C and can be stable for up to one year. Avoid repeated freeze/thaw cycles.

RECONSTITUTION INFORMATION:

Each vial contains enough antiserum for one 96-well plate. The powder should be rehydrated with 5ml of EIA buffer (Catalog # Y-1055).
