

Peninsula Laboratories International, Inc.

MATERIAL SAFETY DATA SHEET

Item No. : Y-1000

Description: SEP-Columns (200 mg)

These SEP-columns sample preparation cartridges are packed with either amorphous silica-or polymer-based phases and are intended for use as chromatographic devices. They should be used only as directed and in accordance with good laboratory practice.

All Sample Preparation Cartridges are “articles” as defined by OSHA’s Hazard Communication Standard: 29 CFR 1910.1200(c) and are thus exempt from the requirements of the Hazard Communication Standard, including the requirement to supply MSDSes.
